23.	Floor drains dirty		maintair	n previous services.				

To assure you that all law, regulations and rules are followed, this log is completed after each service by The Company. The technician will indicate what pesticides were used and where. An inspection summary will also be included. These records should be kept by a person designated by your company for easy reference when needed. A copy of this report will be kept in The Company's office for further reference and evaluation. This report will also identify those conditions conducive to pest problems or which inhibit pest control services.
